

Brandt Aqua Bio-Trol Pucks

Microbial Pond Clarifier Super Strength Pucks

Product Data Bulletin

Features

- Puck formula provides 2 times active beneficial bacterial colonies per pound, compared to the granular form
- Eliminates pond scum and green, soupy conditions
- Reduces foul odors and organic sediment
- Improves water clarity
- Digests excess organic matter in ponds and lakes

BRANDT AQUA BIO-TROL is the safe, natural way to establish and maintain cleaner pond and lake water without chemicals. BRANDT AQUA BIO-TROL eliminates pond scum and green, soupy conditions, while eliminating foul odors. BRANDT AQUA BIO-TROL will improve water clarity and digest excess organic matter in ponds, lakes and fountains.

BRANDT AQUA BIO-TROL is a microbial system formulated to expedite the establishment of beneficial microbial populations in aquatic environments. This biologically diverse formulation contains 58 strains of select aerobic and facultative bacteria capable of biodegrading cellulose, lignin, hydrocarbons and other organic contaminants in ponds, lakes and aquaculture settings. Many of the strains also serve to reduce excess nitrates and phosphates from the water column. Typically, you will see an improvement in water clarity within 2 weeks of implementing the program, provided adequate dissolved oxygen levels are maintained!

BRANDT AQUA BIO-TROL reduces levels of harmful nitrates, ammonia and organic sediment. BRANDT AQUA BIO-TROL is effective under a wide range of climactic conditions, an enhancement for all aquatic life. Non-toxic BRANDT AQUA BIO-TROL is safe for fish, plants and applicators.

Active Ingredients

Natural, microbial based product containing 500 billion per pound of genus Bacillus and other soil bacteria capable of biodegrading cellulose, lignin, hydrocarbons, and other organic pollutants in pond lake and fountain water for green slime, scum, and odor reduction; in an inert carrier for pond, lake, and fountain applications.

Directions for Use

BRANDT AQUA BIO-TROL is most effective when water temperatures range from 50° to 100° F. For best results, provide adequate surface or subsurface aeration.

First Application

Use 14-20 pucks of BRANDT AQUA BIO-TROL per acre/foot of water. Apply by distributing pucks as much as possible around pond and lake edges. Avoid dumping pucks in one concentrated location.

Subsequent Applications

Use 7 pucks of BRANDT AQUA BIO-TROL per acre/foot of water once a month or as needed.
