

Brandt Infield

Water Conditioner, Deposition Aid,
Drift Control Agent & Antifoaming Agent

Product Data Bulletin

Features

- Disperses immediately into spray solution
- Increases size and weight of spray droplets, minimizing drift and maximizing performance
- Completely water soluble
- Speeds mixing time
- Easy to use even in hard and/or cold water
- Won't plug screens or nozzles
- Equivalent to 8.5 lbs of dry AMS

BRANDT INFIELD is a convenient, ready-to-use spray additive and is intended for use with herbicides that recommend the addition of Ammonium Sulfate to the spray solution. Uptake is enhanced by the ammonium ion source. BRANDT INFIELD also increases efficiency by improving drift control characteristics and deposition of the spray solution. Sound application technology and procedures must be followed when applying pesticides. BRANDT INFIELD is compatible with most pesticides. BRANDT INFIELD buffers spray solutions to prevent hydrolysis and ties up antagonistic ions found in hard water. Always use this product in accordance with instructions concerning adjuvants contained in the pesticide label.

Directions for Use

For the addition of 8.5 pounds of Ammonium Sulfate per 100 gallons of spray solution, add one 2.5 gallon container of BRANDT INFIELD per 100 gallons, or 2.5% v/v. BRANDT INFIELD contains the proper amount of Deposition Aid and Defoamer for use at this rate. Always add BRANDT INFIELD to the spray solution first, to allow it to buffer hard waters, before the addition of pesticides. Add pesticides to the tank in the sequence recommended on the pesticide label.

Principle Functioning Agents

Proprietary blend of Ammonium Sulfate solution,* polyacrylamides and defoamer	100.0%
Total	100.0%

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.
*INFIELD contains 3.3 lbs of Ammonium Sulfate per gallon.

Mixing Instructions

Add 2/3 of the required water to the spray tank. With agitation running, add BRANDT INFIELD. While adding the remaining water and with the agitation running, add the pesticide. Maintain agitation while spraying to ensure a uniform mixture.

See product label for complete instructions.
