

Brandt Inspray 90

Features

- Designed for use with herbicides, insecticides, fungicides, defoliant and dessicants
- Quick wetting and uniform droplet distribution
- Improves wetting, spreading and penetration

BRANDT INSPRAY 90 is a general purpose, low foam non-ionic spreader/activator for use on plants to maximize the effectiveness of insecticides, herbicides (aquatic and terrestrial), fungicides, defoliant and dessicants. It is designed for quick wetting, uniform droplet distribution and increased spray retention on leaf and stem surfaces. BRANDT INSPRAY 90 incorporates the properties of a spreader and an activator to improve wetting, spreading, contact activity and penetration.

Directions for Use

REFER TO PESTICIDE LABEL FOR SPECIFIC CROP USE AND APPLICATION RATES.

With herbicides, insecticides, fungicides, defoliant and dessicants: Add 1/2 to 4 pints of BRANDT INSPRAY 90 per 100 gallons of water during mixing. For specific rates of surfactant, always refer to the pesticide manufacturers' label.

NOTE: Needed rates of BRANDT INSPRAY 90 may vary with conditions of application. Sufficient BRANDT INSPRAY 90 should be added to form a smooth, uniform spray deposit. Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages and restrictions have precedence over DIRECTIONS FOR USE referred to on the product label.
