

Brandt Nurture 18-3-6

50% Slow Release Nitrogen Fertilizer

NURTURE provides highly efficient, quality nutrition with 50% Slow Release Nitrogen, and a fully chelated micronutrient package. Because of its unique blend of nutritional ingredients, the micro-nutritional package in NURTURE is fully chelated, and can be taken up either by foliar or soil absorption.

CROP RECOMMENDATIONS

NURTURE is recommended for the following crops to prevent Nitrogen deficiencies and maximize yields:

alfalfa, almonds, avocados, apples, barley, beans, broccoli, cabbage, cauliflower, carrots, celery, citrus, corn, cotton, cucumbers, eggplant, grapes, lettuce, milo, melons, nectarines, rice, pears, peaches, pecans, peppers, plums, potatoes, peanuts, strawberries, tomatoes, turf, turnips, and wheat.

Citrus: Apply 1-2 gallons per acre.

Trees & Ornamentals: Apply 2-4 quarts in enough water to ensure best coverage.

Vegetables: Apply 1-2 quarts per acre in enough water to ensure best coverage. Low volume sprays should give the best results.

Small fruit: blueberries, grapes, raspberries. Start initial application at early leaf stage at 2-3 quarts in enough water to cover. Apply weekly as needed.
