

FOLI-CAL
Mannitol Chelated Calcium

for prevention and correction of Calcium deficiencies

Contains penetrants and translocation aids
 Contains No chlorides

Freezing Temperature: 32° F
 Weight Per Gallon: 12.2 pounds

NET CONTENTS
2.5 Gal. **30.5 Lbs**

BRANDT CONSOLIDATED
 Pleasant Plains, Illinois 62677
 217-626-1031
 U.S. EPA Est. 48813-IL-1

WARNING: Keep out of reach of children!
 Dispose of container in accordance with local, state & federal regulations

0-0-0 MINIMUM GUARANTEED ANALYSIS
 Calcium **10.0%**
 Derived from Calcium Acetate

GENERAL RECOMMENDATIONS
For use in a balanced fertility program for all crops requiring calcium.

Vegetable, Fruit Trees and Field Crops:

- Use 2-4 pints of Foli-Cal per acre per application throughout the growing season. (At least three applications are recommended.)
- More frequent applications at 1½ quarts per acre may be needed to correct deficiencies once they occur.

Turfgrass (Hydroseeding, Regular Seeding, Sod):

- Use 4-6 ounces of Foli-Cal per 1,000 sq. ft. per application throughout the growing season as a maintenance program.
- At least two applications are recommended, especially if clippings are removed.
- More frequent applications may be needed to correct deficiencies once they occur.
- Use a minimum of one gallon of water per 1,000 sq. ft. as a carrier to assure good coverage.

Ornamental Crops

- Use 2 to 4 pints of Foli-Cal per 100 gallons.
- Cover foliage thoroughly to point of runoff.

Soil Application:

- Can be made preplant or sidedress at 1-2 gallons per acre.

Post Harvest Fruit Drench Application:

- Recommended rate for drench tanks is 1½ gallons of Foli-Cal per 100 gallons of water.

**USE A MINIMUM OF
 20 GALLONS OF WATER PER ACRE WITH
 GROUND SPRAY EQUIPMENT
 5 GALLONS FOR AERIAL APPLICATION.
 FOLI-CAL IS NON-CORROSIVE**

Optimum rate of application will vary between fields, depending on soil pH and organic matter content. For best results, follow soil test or plant analysis recommendations.

MIXING INSTRUCTIONS

- Put 1/3 of water or fertilizer in tank
2. Add correct amount of Foli-Cal
3. Fill tank with balance of fertilizer or water
4. Add other chemicals, if any
5. Agitate adequately, until mixed

CAUTION: Check compatibility with orthophosphates, high potash suspensions, and chemical mixtures.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability of fitness for a particular product expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

Packed 2x2½ Gals.
